

## FAQ

**How to Review and Resave  
Thumbnail Image  
- Replace / Copy as a new -**

## [FAQ – Resave Thumbnail Image]

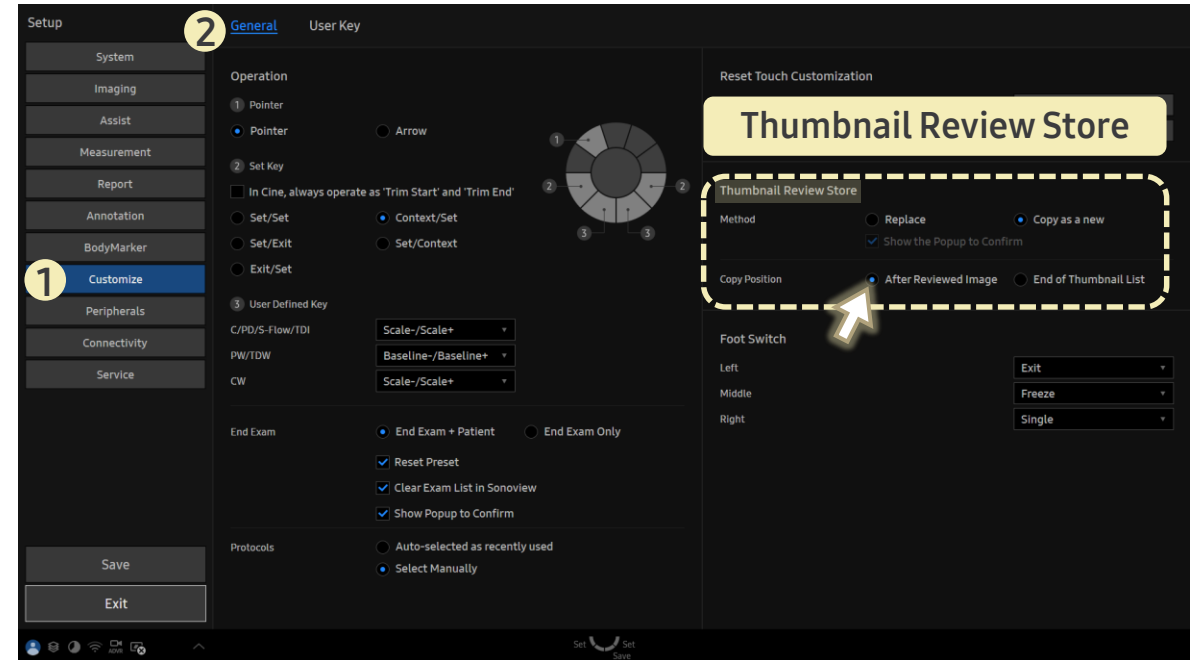

- Question  
I want to resave an image after reviewing it in thumbnail. Where can I configure the method and the image's location?

- Answer

■ Path: Setup > Customize > General

You can choose between **Replace** or **Copy as a new**.

- ▶ If you select **Copy as a new**, you also need to choose the **Copy Position**: either **After Reviewed Image** or **End of Thumbnail List**.

When **Replace** is selected, you can additionally configure  **Show the Popup to Confirm**. When ticked, a message asking about the saving method will appear.

- Yes: The image is replaced.
- No: **Copy as a new** method is applied.
