

## FAQ

# How to Increase Image Area Size (For Saving, Sending to PACS, and Printing)

# SAMSUNG R20

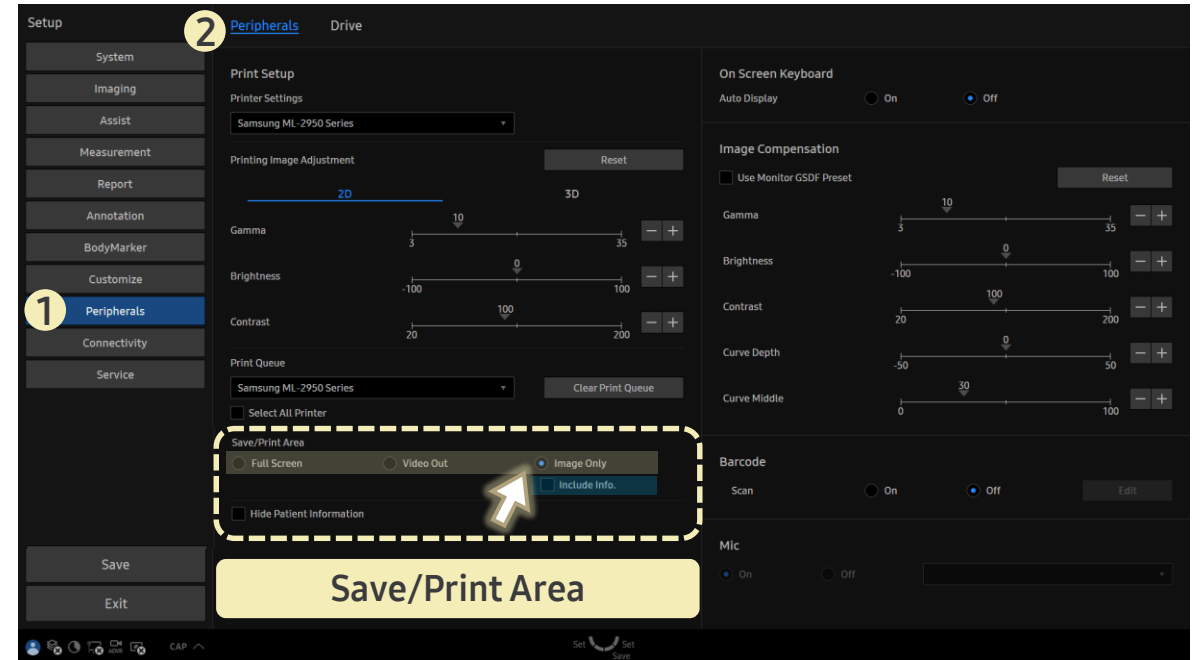

## [FAQ – Image Area Size]

- Question  
The image size appears small when sending it to PACS or printed. How can I make the image larger?

- Answer

■ Path: Setup > Peripherals > Peripherals

Select **Image Only** to save or print only the image area.

☑ When **Include Info.** is checked, the title area at the top of the image will also be included in the saved or printed output.
