

FAQ

How to Always Hide Patient Info During Scanning and Saving

[FAQ – Patient Information]

- Question
Can I completely hide **Patient Information**—even while scanning or saving images?

- Answer

■ Path: Setup > System > Patient

1. Go to **Patient Info.** settings under **Patient Data**.
2. Select **Do not show** from the available options.
 - ▶ Patient information will remain hidden during scanning, saving, printing, and PACS transfer.

- Patient information will not be displayed in the screen title area.
